# ABOUT US

## GLOBAL COPPER LIMITED

### Delivering Quality Copper Solutions to the Global Market

Global Copper Limited is a dynamic company engaged in the international trading of copper raw materials and the manufacturing of high-quality copper products. The company specializes in the supply of Copper Concentrate and LME Grade Copper Cathodes, along with the manufacturing of Copper Rods ranging from 8mm to 25mm through its modern production facility. With a strong commitment to quality, reliability, and international standards, we serve industries such as electrical manufacturing, cable production, power infrastructure, construction, and metallurgy.

With strong local partnerships and experienced management, we supply international-standard copper products to global smelters, traders, and industrial consumers. Our operations are driven by strict quality control, transparent business practices, responsible sourcing, and full regulatory compliance, ensuring reliability and trust across our supply chain.

# OUR VISION AND MISSION

VISION

To become a trusted global leader in copper trading and manufacturing by delivering high-quality copper products and building long-term partnerships with customers worldwide.

- To supply premium Copper Concentrate and Copper Cathodes through reliable global sourcing.
- To manufacture high-quality Copper Rods (8mm - 25mm) using advanced production technology.
- To maintain strict quality standards and continuous operational improvement.
- To build strong relationships with customers through transparency, reliability, and service excellence.
- To support industrial development by providing dependable copper solutions.

MISSION

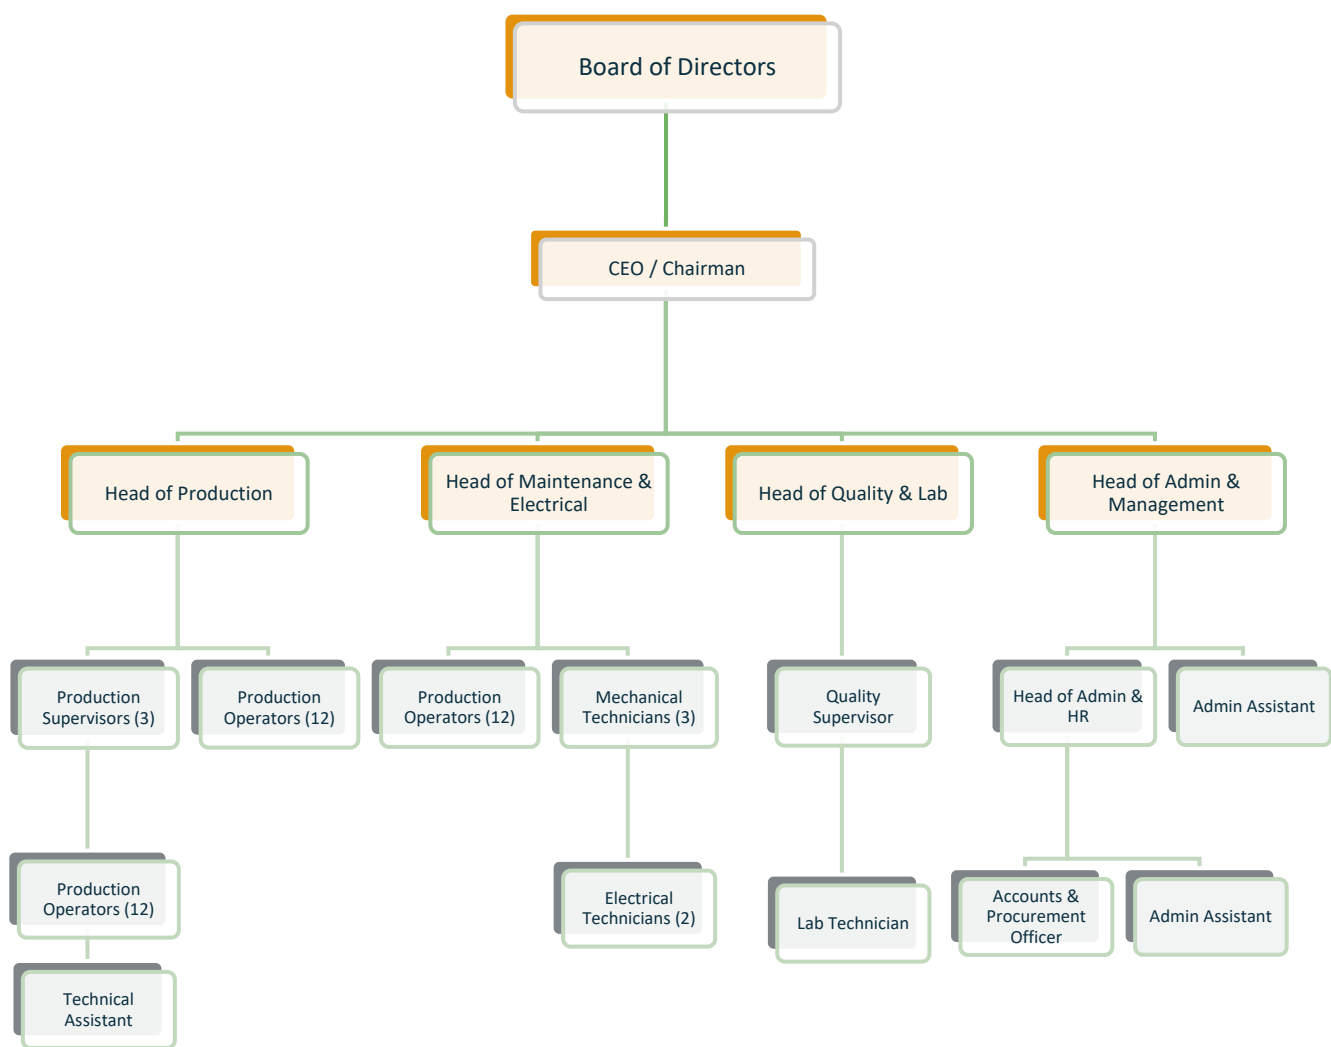

**GLOBAL COPPER**  
LIMITED

# QUALITY POLICY

Global Copper Limited is committed to delivering copper products that meet international quality standards and customer expectations. Our quality policy focuses on:

# ORGANIZATION CHART

## MEET OUR TEAM

### **Hon. Chibwe Peter Kapala**

Minister of Fisheries and Livestock

Hon. Chibwe Peter Kapala, Minister of Fisheries and Livestock of the Republic of Zambia, plays a key role in advancing Zambia's agro - based industrial development, food security, and sustainable livestock value chains. Under his leadership, the Ministry has focused on promoting private sector participation, improving productivity, and strengthening institutional frameworks that support investment, skills development, and rural livelihoods. His policy direction aligns closely with Zambia's broader objectives of economic diversification, value addition, and sustainable growth through responsible industrial and resource-based development.

Prior to his current portfolio, Hon. Kapala served as Minister of Energy, where he was instrumental in strengthening power sector policy, renewable energy integration, and energy security—critical enablers for industrial growth. His combined experience in energy and agriculture aligns strongly with Zambia's national objectives of economic diversification, value addition, and sustainable, inclusive growth.

### **Hon. Chipoka Mulenga**

Minister of Commerce, Trade and Industry of Zambia

Hon. Chipoka Mulenga, Minister of Commerce, Trade and Industry of the Republic of Zambia, provides strategic leadership in driving Zambia's industrialization, trade expansion, and private sector-led economic growth. Under his stewardship, the Ministry has strengthened policies supporting manufacturing, value addition, and export-oriented industries, including the development of Multi-Facility Economic Zones (MFEZs). His focus on improving the investment climate, enhancing ease of doing business, and promoting local beneficiation aligns strongly with Zambia's national objectives of economic diversification, job creation, and sustainable industrial development.

### **Dr. Ravi Palaniappan**

CEO/Chairman

Ravi brings significant experience in finance and private investment to the Company. He also has extensive knowledge regarding solar power generation and the industry in India. A scientist by training, Ravi has started and run several businesses both in India and the US. Ravi will oversee the Company's overall operations, solar investment operations and relations in the U.S

### **Dr. Pandian Karuppannan**

Procurement Director

Pandian is a former General Manager of SAIL, the third-largest steel producer in the world. He has more than three decades of service, out of which over two decades were spent in international business, marketing stainless steel across the globe and setting up value-added manufacturing units in India. Professionally, he is a technocrat with UG, PG, and PhD degrees in Mechanical Engineering, along with a Master's degree in Business Management with a specialization in Finance. He is a Fellow of the Institution of Engineers (India) and a certified Chartered Engineer.

### **Ganesan Munusamy**

Financial Director

Ganesh has 25 years of vast experience in Audit, Tax, and Corporate Finance, with expertise in Investment Finance, Trade Finance, and Project Finance, working in collaboration with various banks. He has extensive audit experience with major firms such as Moores Rowland and BDO, overseeing financial compliance and reporting for large corporations. Ganesh specializes in systems integration, staff training, and IT risk assessment, with a proven track record in project financing, business modeling, and compliance management. He holds an MBA in Marketing and Finance, along with professional certifications in ACCA (Inter) and Greenbelt Six Sigma.

# OUR PRODUCTS

Global Copper Limited provides a range of high-quality copper materials for industrial and manufacturing applications.

## 1. Copper Concentrate

High-quality copper concentrate sourced from reliable mining operations and supplied to smelters and refineries worldwide.

### Typical Specifications

| PARAMETER      | SPECIFICATION                      |
|----------------|------------------------------------|
| Copper Content | 20% - 30%                          |
| Moisture       | 8% - 10%                           |
| Form           | Powder / Bulk Concentrate          |
| Packaging      | 1-2 MT Jumbo Bags or Bulk Shipment |

### Applications

- ☐ Smelting and refining into copper cathodes
- ☐ Production of copper anodes
- ☐ Industrial metallurgy processes

## 2. Copper Cathodes

High-purity copper cathodes produced according to the specifications of the London Metal Exchange (LME) Grade A standard.

### Product Specifications

| PARAMETER | SPECIFICATION          |
|-----------|------------------------|
| Purity    | 99.97% - 99.99% Cu     |
| Grade     | LME Grade A            |
| Weight    | 125 – 150 Kg per Sheet |
| Form      | Cathode Plates         |

### Applications

- ☐ Wire and cable manufacturing
- ☐ Copper rod production
- ☐ Transformer and electrical component manufacturing
- ☐ Brass and alloy production

### 3. Copper Rods (8mm – 25mm)

Our copper rods are manufactured from high-purity copper cathodes using continuous casting and rolling processes to ensure excellent electrical conductivity and mechanical performance.

#### Available Sizes

Diameter

8mm

10mm

12mm

12.5mm

16mm

20mm

25mm

(Custom sizes available upon request)

#### Mechanical Properties

- ☐ High tensile strength
- ☐ Excellent elongation
- ☐ Uniform grain structure
- ☐ Smooth and crack-free surface

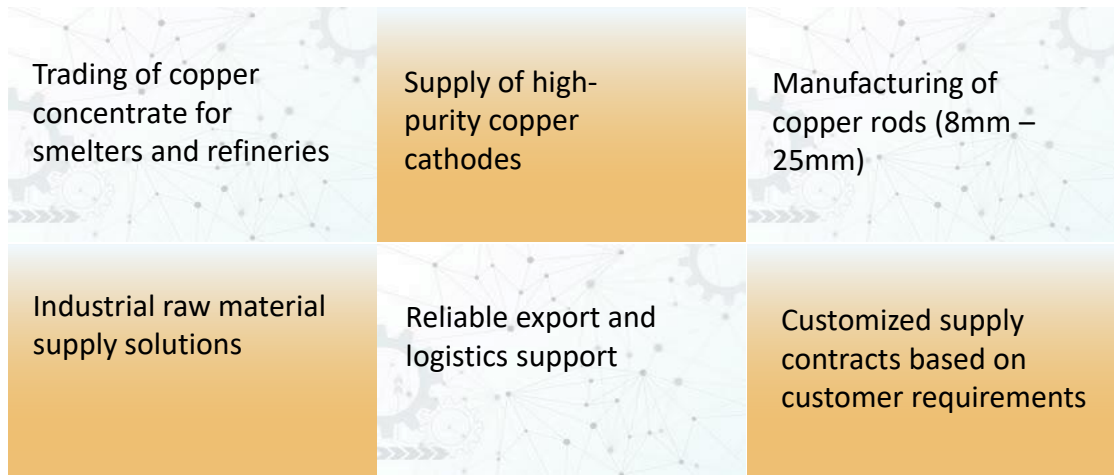

#### Applications

- ☐ Electrical wire production
- ☐ Cable manufacturing
- ☐ Transformer winding
- ☐ Industrial metal fabrication

## OUR SERVICES

Global Copper Limited provides comprehensive services to meet the needs of industrial customers.

## OUR STRENGTH

- ❑ Integrated business model combining trading and manufacturing
- ❑ Own copper rod manufacturing facility
- ❑ Reliable sourcing network for copper raw materials
- ❑ Strong commitment to quality and international standards
- ❑ Efficient supply chain and logistics management
- ❑ Competitive pricing with consistent supply

## WHY CHOOSE US

Reliable supplier of copper  
raw materials and products

Strong supply chain & global  
sourcing capability and  
Competitive international pricing

Modern production  
processes ensuring  
consistent product quality

High-quality copper  
manufactured from  
99.99% pure copper

Commitment to long-term  
business partnerships

## MARKET WE SERVE

Global Copper Limited supplies copper products to international smelters, metal traders, manufacturers, and industrial consumers across Asia, Europe, and the Middle East. Our products support industries involved in electrical systems, infrastructure development, renewable energy, and advanced manufacturing, contributing to the growing global demand for copper in modern technologies.

## OUR COMMITMENTS

We operate with a strong focus on sustainability, compliance, and ethical business practices, aligning with Zambian regulations and international trade standards. Our goal is to become a trusted long-term partner in the global copper supply chain.
